EDUCATION

University of Wisconsin–Madison

Bachelor of Science in Computer Science, Data Science, and Economics (Math Emphasis)

Madison, WI

Aug. 2023 – May 2027

EXPERIENCE

IT Intern

Siemens Energy

Jun 2025 – Present

Orlando, FL

- Used Power BI to analyze IT ticket data and visualize resolution trends for leadership reporting
- Built internal training websites on SharePoint to support employee learning
- Automated workflows with Power Automate, HTML/CSS to improve process efficiency

Python Student Intern

InfoAxon Technologies

Jul 2022

New Delhi, India

- Developed a Python program to automate Instagram/Facebook posts using Meta for Developers API
- Integrated scheduling, authentication, and content-management workflows for social media automation
- Enabled multiple users to upload and manage content on the same page

Engineering Intern

Motorola Solutions

Jun 2022

New Delhi, India

- Gained understanding of wireless technologies powering modern mission-critical devices (e.g., walkie-talkies)
- Learned about communication systems in public transportation including Delhi Metro's infrastructure
- Researched the evolution of wireless communication and Motorola's role in public-safety technologies

PROJECTS

Asset Management Automation | *Power Automate, HTML/CSS*

Jun 2025 – Present

- Built an automated workflow using Power Automate to send reminder emails for PC & Mobile returns of off-boarded employees
- Designed professional email templates using HTML/CSS and tracked over 2,000 non-compliant devices
- Achieved an estimated \$100K in savings by improving compliance and asset-recovery efficiency

IT Ticket Data Visualization | *Power BI, Excel*

Jun 2025 – Aug 2025

- Developed interactive Power BI dashboards analyzing 15K+ IT tickets to uncover resolution-time trends
- Automated weekly and monthly reporting for leadership, reducing manual reporting effort by 60%+
- Delivered insights that improved SLA compliance and accelerated ticket resolution

TECHNICAL SKILLS

Languages: Python, Java, HTML/CSS, C, R

Tools: Git, Bash, Power BI, Excel, SharePoint
